

Health and Safety Representatives (HSRs) and Designated Work Groups

HSRs represent their specific workgroup on a campus. Staff can contact their representative about WHS issues they are concerned about. Although the HSR may not be able to present a solution, they will be able to act as a conduit to assist in the resolution process. Refer to the [Communications and Consultation Procedure](#) for more information. If you would like more information about the role of health and safety representatives, or if you are interested in one of the vacancies, please email [Health Safety and Wellbeing](#).
